

We've finished breaking down everything from call into a full development plan and we're ready to start building. Before we can kick off some of the bigger features, we need some specific information from your side. Once we have these answers we can move forward without any delays.

1. Promotion Level Thresholds

Needed for: Dashboard Producer & Builder progress bars (the two arrows)

For each of the 6 levels below, please fill in:

- How much In Force premium an agent needs to hit (in dollars)
- The time window it applies to (e.g., last 30 days, 60 days, 90 days)
- For the Builder track only — how many active agents they also need on their team

Level	Target Producer: Premium Needed	Target Producer: Time Window	Target Builder: Premium Needed	Builder: Active Agents Needed	Builder: Time Window
Associate (starting level — no requirement) (60%)					
Senior Associate (70%)					
Manager (80%)					
Senior Manager (90%)					
Regional Executive (100%)					

Senior
Regional
Executive
(110%)

National
Executive
(120%)

Senior
National
Executive
(130%)

I've included two pictures, one for the producer and one for the builder. In the pictures you'll also have find a rule for skipping promotion levels.

RHP – Producer Promotion Structure

Level	Comp	Personal Premium	Time Window
Associate	60%	None	—
Senior Associate	70%	\$5,000	Rolling 30 days
Manager	80%	\$30,000	Rolling 6 months
Senior Manager	90%	\$50,000	Rolling 6 months
Regional Executive	100%	\$75,000	Rolling 6 months
Senior Regional Executive	110%	\$100,000	Rolling 6 months
National Executive	120%	\$125,000	Rolling 6 months
Senior National Executive	130%	\$150,000	Rolling 6 months

Producer Fast-Track Rule

Agents may **skip one promotion level** if they produce:

1.4 × the premium requirement of the target level

RHP – Builder Promotion Structure

Level	Comp	Team Premium	Licensed Agents	Time Window
Associate	60%	—	—	—
Senior Associate	70%	\$10,000	2 agents	Rolling 60 days
Manager	80%	\$30,000	5 agents	Rolling 2 months
Senior Manager	90%	\$60,000	10 agents	Rolling 2 months
Regional Executive	100%	\$105,000	15 agents	Rolling 3 months
Senior Regional Executive	110%	\$120,000	30 agents	Rolling 3 months
National Executive	120%	\$150,000	70 agents	Rolling 3 months
Senior National Executive	130%	\$225,000	200 agents	Rolling 3 months

Builder Fast-Track Rule

Agents may skip one promotion level if they achieve:

1.4 × the team premium requirement of the target level.

No more than 50% of the team premium may come from one leg or personal production.

You can also just reply with a simple list like: "Senior Associate = \$5,000 in 30 days / Builder: \$10,000 + 2 agents in 60 days".

2. Carrier List by Product Category

Needed for: The new 3-tab Carrier Management section (Life & Supplemental / ACA / Medicare)

Life & Supplemental Carriers:

- Trans America — 80%
- American Amicable — 90%

I will upload pictures with factors for each company since each company also has different products.

Carrier: American Amicable

Product	Factor
Senior / Family Choice	0.88
Home Protector	0.88
Easy Term 20 & 30 yr	0.80
Express UL	0.80
Secure Life Plus	0.88
Term Made Simple	0.84
Survivor Protector	0.88
OBA	0.76

Max Accumulator+ II	0.46
Max Accumulator+ II with ECV Rider	0.05
Value+ Protector II	0.46
Protection Extend IUL (Conversions)	0.14

With Assurity it has multiple pages due to the various products and that some are supplemental. For supplemental products I'm also uploading in that tab the guide you see there that has to do with Level 1, level 2, etc. It's a reference for the agent to know based on their title which level of commission they at with supplemental.

Assurity — Supplemental Level Mapping

Title	Supplemental Level
Associate	Level 1
Senior Associate	Level 2
Manager	Level 3
Senior Manager	Level 3
Regional Executive	Level 4
Senior Regional Executive	Level 5
National Executive	Level 5
Senior National Executive	Level 5

Assurity — Supplemental Product Payout Chart

Product	L1	L2	L3	L4	L5

4. ACA CSV Upload Format

Needed for: ACA Client Volume Tracker (the widget showing team health insurance client counts)

Each month you'll download a file from your carrier system and upload it into RHP Office. We need to know what columns are in that file so we can build the importer.

Please answer:

- What columns does your export file have? (e.g., Agent Name, Agent Email, Client Count, Month)
- Does it have a unique agent ID column, or just name/email?
- What format is the date/period column? (e.g., "2026-03" or "March 2026")

Explanation (for developer reference):

CSV Column	Meaning
first_name	Client's first name
last_name	Client's last name
issuer	Insurance carrier (issuer)
agent	Agent assigned to the client
household_size	Number of members on the policy

Order required in CSV:

1. first_name
2. last_name
3. issuer
4. agent
5. household_size

5. Production Submission Statuses — Confirmation

Proposed statuses:

Submitted → Pending → In Force → Lapsed → Cancelled

Does this cover everything? Add additional statuses if needed below:

Use these statuses:

Submitted

Application sent to carrier.

Pending

Carrier reviewing / underwriting / waiting for documents.

Approved

Carrier approved but policy not active yet (waiting first payment or effective date).

In Force (Active)

Policy is active and counted toward production and bonuses.

Not Taken / Client Declined

Client decided not to proceed.

Declined by Carrier

Carrier rejected application.

Lapsed

Policy was active but stopped due to non-payment.

Cancelled

Client intentionally cancelled policy.

6. Vistaprint - Final business card template and vendor link

You need to register in the **Vistaprint Affiliate Program**. And please provide **Vistaprint credentials**.

We would be using Redirect Integration with Vistaprint, the idea is simple:
RHP Office website does NOT process the order. We just send users to Vistaprint to complete the purchase and you earn from their affiliate program.

Credentials:

Rhpinsurance@gmail.com

Rhp2026!

Below is a picture of the two designs. One in spanish and one in english.
